The peer-reviewed International Journal

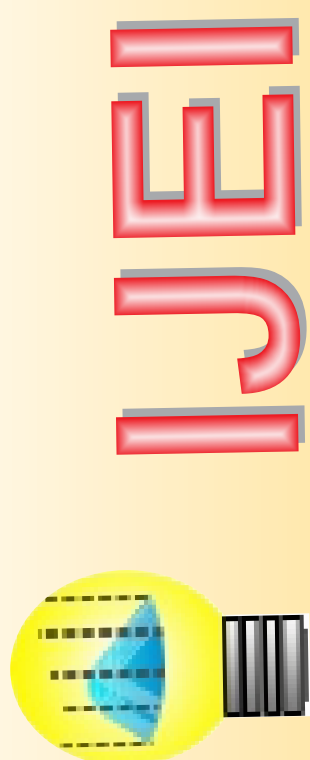

Research in Science & Technology

Research on the influence of heat sink plate structural parameters on the cooling efficiency of electric vehicle battery packs	01-05
Thiophene compounds from <i>Eclipta prostrata</i> (L.) L.	06-09
Adaptive Fuzzy-PI Load Frequency Control for A Single-Area Reheat Thermal Power System	10-17
Implementation and Experimental Validation of a Dual-Loop Digital PID Control System for a Separately Excited DC Motor	18-24
Startup Journalism Platforms and Independent Media: Growth, Challenges, and Future Prospects	25-30
Analysis And Fabrication of Gesture Recognition Speech System	31-38
The Voice of the Displaced: Harun Hashim al-Rashid and the Poetics of Palestinian Resilience	39-42
Methods to Enhance English Pronunciation for Non-English Majored Students in Vietnam: A Conceptual Framework	43-50
State-Space Modeling and Harmonic Analysis of Matrix Converter with RL Load and Passive LC Filter	51-59
Selection of Lean Manufacturing Tools for Shirt Production Lines	60-64
Developing a speech-to-text application on the Android platform	65-73
English Listening Comprehension among Students at TNUT: A Research Synthesis of Published Studies	74-78
The Fourth Industrial Revolution: Opportunities and Challenges for Vietnam's Retail Market	79-84
Study and Design of a Pipe Surface Inspection Robot	85-92
Emission Reduction Potential of Sorghum-Based Bioethanol Blends in Small Engine Applications	93-99
